Hay, Thomas

12/30/91 Went over to speak to detainee regarding psych background. Detainee very angry, verbalized for 30 min. regarding childhood being sent away since age 5 stated he had trouble w/ administration @ DeLham HOC + his lawyers got him moved 20 days earlier than he was suppose to. He states "I'm not getting a fair shake here, I want to be in population. I had trouble getting along with the people in Bridgewater, they loved me because I blew away one of the jerks." "When I was downstairs (41 unit) earlier all the guys come up to me + said I know you I saw you on TV you're the one that blew up the cop!" He does not want to be in 55 he wants general population. I spent along time trying to explain to him why he was there + he did not want to hear it. Detainee very belligerent verbally abusive. I told him he was there because he laughed when asked earlier if he was going to hurt himself. He stated he was calling Channel 5 + the newspapers to tell them about his tx so far since coming here today. He took out a small blue book + flipped several business cards + said they all gave me their business card

his shoelaces removed & placed on 15 min
checks because he said if he was going to hurt
himself he would get OOB + bang his head against
metal plates on window + get back into bed, cover
his head + bleed to death. Joan Caffery LPN

5.21.92 7:30pm - Lt. Larkin came to the Clinic +
stated that Mr. Thomas Shay called the media and
stated "he would not be around tomorrow." Detainee
Thomas ^{SHAY} was brought to clinic and when asked
what was going on he stated "I called Channel 56
and tried to talk to Karen Marinelli, but I
talked to some guy instead. I just told him
I would not be calling anymore because I
will be getting out tomorrow, that my mother was
putting her condo up. He didn't believe me and
I just said I'll be out of here tomorrow." I
told Detainee Shay that the person he talked
with got the impression he was going to commit
suicide, and we have to take every precaution
to ensure his safety. Detainee Shay got very
upset and stated "Well I guess I will have

Shay, Thomas

to break some windows around here."

He then left the clinic. Detainee put
in 5564 on suicide precautions. Dr.
Ducomb called and will be in to see
Detainee Shay this evening.
