Attorney Goldings,

My name is John Bowden, formerly of Charlstown Mass., now currently Inmate Number 19118-038 being held at USP Allenwood in Pennsylvania.

I am writing on behalf of Alfred Trenkler who I met here around March of 1998. I wrote you an affidavit concerning several conversations I had had with a David Lindholm who I was being held with at the Middleton County house of correction prior to Lindholm's testimony against Trenkler in the Roslindale Bombing trial, in October/November of 1993.

I am wondering why I have not been contacted by you either to give a deposition or to testify as to the facts I know concerning Lindholm. I gave you an honest account of the conversations I had with Lindholm and have nothing to gain for my cooperation with you.

Lindholm had told me that he did not care if he spent the rest of his time in segregation or protective custody because he told me he knew that the Government would set him free sometime after Trenkler's sentencing hearing since, other than Lindholm, there was really no other evidence against Trenkler and Lindholm could hold the Government to the unwritten deal by threatening to tell Trenkler's attorneys that he had lied for the government.

I just want to help set things right based on what I know about Lindholm. I realize that the Government would be totally against me testimony and that I would have nothing to gain but the satisfaction of righting a wrong. Trenkler has offered me nothing for my coming forward and neither have I asked for anything. I simply want to do my part in the interest of justice and help you help Trenkler win this case, a conviction based on a lying rat named David Lindholm.

Sincerely,

John J. Bowden
