

Dear Nancy Gerlner, U.S. District Judge.

3-31-07.

I can Prove Beyond a reasonable Doubt that the admissions I made on channel 56, were lies. I can also prove that the receipt offered during trial by AUSA Kelly was fraudulent and thereby prove the testimony by Duayne Garbister was perjured.

The General counsel of the Family Corporation did a search of all the radiostack sales for October 18th and the entire month of October. The receipt was found to be fraudulent. none of the information on it, including the serial #, reflects the computerized data base of the store.

When AUSA Kelly showed me the mock receipt I waited four days to lie, and make claims to have purchased these items. The Documentation of when AUSA Kelly showed me the mock receipt and the interview date can be authenticated.

I need you to know that Alfred Trankler and myself are innocent men in prison for a crime we didn't commit. But now I offer you a clear and convincing piece of evidence that shows that AUSA Kelly and agent Kott committed fraud and perjury to convict us. are they above the law? or will you help seek criminal charges against them for this key piece of evidence which is so tainted that they used against us?

TRANKLER
