Report Re:		Date
Thomas Shay Vehicle		12/5/91

About 1:30 PM this date Thomas Shay came to the Unit with his brother Butch to take his Buick. I told Thomas Shay that the ATF Lab was interested in looking at a piece of plywood that was in his garage that had paint on it. I asked if they could look at it. He told me that he had no problem with that. I requested that he take the plywood with him when he came for his car. He replied in the affirmative. When he arrived he had the wood with him.

The vehicle was moved by a tow from the Rolling Wrench.
